

March 4, 2008: **Mission of the Shroud**

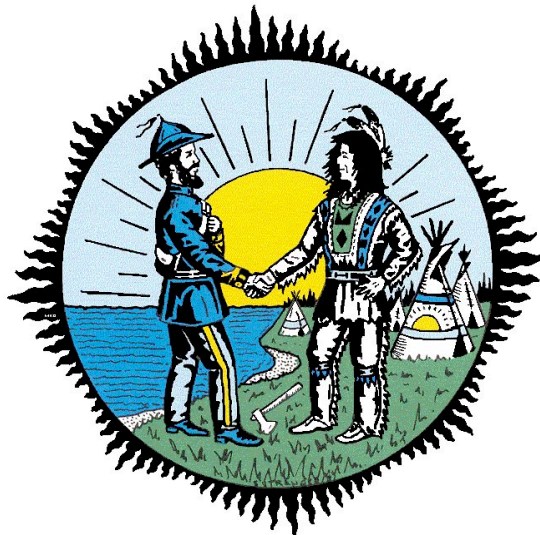

Who Am I? Is Canada for Everyone Together?  
(America also, if you wish!)

There is only one way to *win* and that is where everyone is happy. That is why it is important to respect one another and to work together to bring balance between Indian and white, Chinese - whoever you are. If you continue in dishonesty you will never end the wars. Only where you are honest for all people can they live together in love. And this cannot be achieved by force. Now listen my sons and daughters, mothers and fathers - all of you (whoever you are) it is not honest to start wars (even when you use His Name). It is only by love in everything you do that you can use the name of God – when it is truly *I am*.

Today we are all called upon by the *Spirit* to work together honestly to bring balance to everyone. When it is exactly the same for the ‘one’ as it is for the ‘other’ – then there is honesty and we will achieve *balance*. Don’t be angry. Never forget why the Indian people ‘lost’ many years ago. They became angry, and soon they became dependant on the white people for food and shelter. Now, if the Indian people get angry they will lose everything. Forced out! Finished!

How can everyone win - all together? Not by fighting - but by working together! If you are honest in the *Spirit* you will win all together as one person and change will begin all over. Some might say, ‘Today, you need money or your friends in order to win because it’s impossible any other way!’ It is time now to learn (from the *Spirit*) - that only the *Spirit* will win this time!

Look closely at the picture (depicting the meeting between the Europeans and the Indian people).

I listened to the *Spirit* and was shocked at the things I learned. Now the first thing I learned was that even though people see the picture, they don't know exactly what it means today. The two are making an agreement to work together and to share what they have.

**Figure 1**  
From The Montstrance

**Figure 2**  
From The Montstrance

The two photographs of the bronze decorations (above, from the monstrance) are beautiful and fascinating too. The most surprising thing is this. That what we see in the photographs *agrees* with the picture of the meeting between the white and Indian people 500 years ago. And what we see in the one photograph are the four directions indicated by shafts of wheat pointing to the sharing of food by all people everywhere. Different countries will work together and feed each other because finally we *agree* to work together everywhere and to share what we have. And this shocked me.

But have we done this or not?

Today, whether in the U.S. or Canada - can we say that we truly do things in the name of God (whatever name we use for God) and that He is truly respected in everything we do? Or don't we believe in this at all? If you don't believe in this *I am* when you are calling upon the name of the *Spirit* then don't use the *name* that means nothing for you. Also never forget – you have no excuses for poor people while you support all the wars you want everywhere and spend money on research to the moon! So there are no excuses for people to be poor!

Today it is better to live by the *Spirit* to work for peace (which is cheaper than war) instead of making excuses for wars or anything else – excuses that are made in the name of 'a man' to prove that he is more important than anybody else. It doesn't matter if a man says, 'I believe in God' when his fighting proves he is not with God. Remember, from the *Spirit* within, you will find peace. Then there will be no more war anywhere

because you all agree together (all of you) and all of heaven will be together with you also.

Your *heart* is more important than money because when you love, you would give up your life for the people to be free. But if you only care about being 'in charge of a country' in order to win in the world (because you have the money to win) then you are not acting out of love for the people. When we love each other, then we will clean all over *by the Spirit*, instead of by war. You will finally understand that your love for God is more important because war or money is never *for the people*.

We write to you today so you can take the time to learn from the *Spirit* and to listen to Him to guide you on how to change Canada, the U.S. and everywhere because your love will clean all heaven. And bless you - all of you if in your heart (truly) *I am your God!*

Let My *Spirit* guide you to do everything today. Then do the same as *I do* and you too, will be *I am*. Bless you all, and I love you all!

Yours truly,

A handwritten signature in cursive script that reads "Roger Grosjean".
